David, attached are copies of the DRAFT technical assessments updates pulled from Teams.

Per note below from David Garcia:

1. The highlighted areas are for INTERNAL USE, as the data are undergoing quality checks which are not completed. If we were to release the reports, we would likely remove any highlighted area and adjust the text accordingly.
2. Also, the text for the emissions trends goes through 2020 and the graph goes through 2019. Once the 2020 data are approved, we will update the graph.

---

Good Morning David/Erin/Olivia,

Please refer below to the TEAMS link to the DRAFT Technical Assessment Updates for the eight facilities. Please note,

1. The highlighted areas are for INTERNAL USE, as the data are undergoing quality checks which are not completed. If we were to release the reports, we would likely remove any highlighted area and adjust the text accordingly.
2. Also, the text for the emissions trends goes through 2020 and the graph goes through 2019. Once the 2020 data are approved, we will update the graph.
